## SUMMARY

I am a Computer Science student currently pursuing my B.Tech and looking to apply my skills in a job. I am a fast learner and can handle tough situations. I enjoy solving problems and have a strong interest in technology, making me excited to work on innovative projects.

## EDUCATION

**Secondary School Certificate(SSC) -89%**

**Kabanur High School Kabanur**

📅 06/2019 -06/2020 📍 Ichalkaranji, Kolhapur

**Diploma In Computer Science & Engineering -81%**

**Sharad Institute of technology Polytechnic**

📅 08/2020 -06/2023 📍 Ichalkaranji, Kolhapur

**B.Tech In Computer Science & Engineering(AIMI)**

**Bharati Vidyapeeth's College Of Engineering, Kolhapur**

📅 07/2023 -06/2026 📍 Kolhapur

## SKILLS

**Programming Languages:**

Full Stack Develop | Java | Hibernate | SpringBoot

**Database Technologies:**

SQL

**Frontend Development:**

HTML, CSS, JavaScript, React, JSP

**Testing:**

Manual Testing

**Tools & IDEs:**

Eclipse IDE, Visual Studio Code,  
Sublime Text, Android Studio

## PROJECTS

- **AI-Powered pneumonia Detection Website**

Developed an AI-powered pneumonia detection system utilizing Python and MySQL, implementing machine learning algorithms to analyse chest X-ray images. The application allows for the upload of X-ray reports and efficiently stores patient details.

- **Portfolio Website**

Developed a personal portfolio website to showcase various projects and skills. Utilized HTML, CSS & JavaScript for the frontend, ensuring a responsive design.

## EXPERIENCE & INTERNSHIP

**Web Designing Intern :-**

**Hundia Infotech, Ichalkaranji**

As a web designing intern at Hundia Infotech, I worked with HTML, CSS and JavaScript to help create web applications. I made basic design for different projects and collaborated with the team to improve how users interact with the websites.
